

BERRY, LAURISTON M.

1841-June 6, 1922

Dr. L.M. Berry, aged 80 years, at one time a practicing physician at Guernsey, and for years a resident of the Cottonwood, died at Frannie on June 6. The body was brought to Wheatland Saturday night by his son, C.B. Berry and in charge of McCallum & Shierry Mortuary, was laid to rest Sunday afternoon in the Wheatland cemetery. Funeral services in the Congregational church were largely attended, the sermon being given by the Rev. C.A. Nash. The deceased was a member of the A.F. & A.M., and was held in high esteem by all who knew him, a number of Wheatland's retired ranchmen having been his former neighbors.
