

BOOKOUT, ALEXANDER
March 4, 1918-April 8, 1918

The infant son of Mr. and Mrs. J.L. Bookout died on Tuesday morning from smallpox. This is the first death in this community from this dread disease. Sympathy for the sorrowing parents leads us to urge that everyone take every precaution to protect the people of the community from similar bereavement. Report every case of eruption, no matter how apparently trivial. This will protect others. And for personal protection, vaccination that "takes" is a dependable safeguard and protection.
