

MCKEE, ZELDA
?-October 7, 1918

Zelda, the 12 year old daughter of Mr. and Mrs. Chas. McKee, died at the Wheatland hospital Monday. For the past two years she had been a great sufferer of tuberculosis of the hip, and for the past six months, she has been unable to leave her bed. A few weeks ago the disease began to spread thru her entire system and reached her lungs, and it was realized that the case was practically hopeless. Altho a constant sufferer, she was remarkably patient and uncomplaining; and became an object of love and sympathy not only of her friends, but of the hospital nurses and physicians. The sympathy of all is extended to the bereaved family.
