

MUNIER, CHARLES EARL

May 26, 1956-June 12, 2006

Lt. Col. Charles Munier, 49, of Wheatland, died at Walter Reed Medical Center, in Washington, D.C., Monday, after a brief illness.

Munier, who worked as the Camp Guernsey Joint Training Facilities manager, was most recently deployed to Afghanistan as a trainer for the Afghan National Army.

Maj. Gen. Ed Wright, Wyoming's adjutant general, said Munier was an outstanding citizen soldier who volunteered to deploy to train Afghan soldiers.

"Lt. Col. Munier was a pivotal member of the Camp Guernsey staff and an outstanding officer who took his duties as a Citizen Soldier seriously. We send our deepest sympathies to his family and will continue to assist them through this difficult time," Wright said.

Camp Guernsey lowered the garrison flag to half-mast Monday in honor of Munier's memory.

Funeral services are tentatively scheduled for Saturday in Wheatland.
